FOR IMMEDIATE RELEASE

Synthetic Ice Surface Installed at West Central Events Centre

Town of Kindersley employees and volunteers are preparing a synthetic rink today that will give young skaters an ice surface to practice on until the West Central Events Centre opens later this fall.

The rink – 70 feet long and 36 feet wide – comes complete with boards, glass, player benches and matting for players to walk on and is suitable for year-round use. The Town has signed an agreement to lease the ice surface, but several local businesses and individuals have also signed on as sponsors to offset the cost of the project.

Director of Leisure Services Kim Vogel says the ice surface will be leased for a minimum of three months, with the potential to extend the agreement if the public shows enough interest in using it.

“We chose to bring this to Kindersley because it provides more recreational opportunities for residents and children, and I think it will also draw people from other communities,” Vogel says. “It is free of charge and can be used any time.”

Vogel says there is no cost to maintain the rink surface, it just needs to be kept clean.

It is recommended that anyone skating on the synthetic ice wear a helmet. The rink is adjacent to McGowan Park.

The Town of Kindersley would like to recognize the following sponsors for their contributions to the synthetic ice surface: Kindersley Glass 2010 Ltd., Clean Harbours, Dean Galbraith and GFL Property Management, Good to Go Rentals, and Kindersley Insurance.
